

**V A B I L O*****na seminar za železne livarne***

ki bo potekal **06. 07. 2023**, na lokaciji Gospodarski zbornice Slovenije, v dvorani B (1. nadstropje) in na naslovu Dimičeva 13, 1000 Ljubljana, v *organizaciji* **Društva livarjev Slovenije** in *izvedbi* **HA Group** (Hüttenes-Albertus).

**Predavatelji:** Alessandro Rossi, Fausto Lepretti, Cristiano Vivorio, Mirco Moretto, Matteo Pesci, Luca Colombo, Luca Diego Gonzo.

Seminar bo potekal po naslednjem **programu**:

9:00–9:45	Welcome, HA Group and its Center of Competence (the advanced foundry innovation platform)
9:45–10:35	Green Sand: Composition - raw materials – potential contamination
<b>10:35–11:00</b>	<b>Odmor</b>
11:00–11:35	Hybrid furan systems
11:35–12:10	Tele Feeders – high technological sleeves without Fluorine – case studies
12:10–12:30	Saving metal by using Chemex high performing insert sleeves
<b>12:30–13:45</b>	<b>Kosilo</b>
13:45–14:15	Existing Filtration technologies and their peculiarities
14:15–14:35	Most modern simulation systems to support defects prediction, feeding and filling systems optimization
<b>14:35–15:00</b>	<b>Odmor</b>
15:00–15:30	Cores: Advanced Cold Box Systems
15:30–16:00	RCS: The oldest system Process for Special Cores but still current
16:00–16:30	Coatings: High performing coatings to prevent the most dangerous castings defects (cores and moulds)
